Our Department

Hunter College is located at the intersection of 68th Street and Lexington ave. in Manhattan's Upper East Side. The Biology department occupies the 8th and 9th floors of the Hunter North building. The mission of the Department of Biological Sciences parallels that of Hunter College: to provide a quality education for our undergraduate and graduate students, enabling them to participate productively in their chosen pursuits.The Department actively encourages specific careers such as academic and industrial research, medicine, dentistry, veterinary medicine, and college and high school teaching. At the same time, the Department takes a leading role in promoting the college-wide goals of broadening and deepening an individual's outlook, and of heightening intellectual creativity
