Biological Sciences at Hunter College

Is now offering a brighter future ...

with funding from

The Howard Hughes Medical Institute

Grant for Undergraduate Science Education

Program Director:
Shirley Raps, Ph.D.
Professor and Chair
Dept. of Biological Sciences

Steering Committee:
Professor Derrick Brazill
Professor Shirley Raps
Professor Patricia Rockwell

New York, NY 10021
The Department of Biological Sciences at Hunter College, with funding from a Howard Hughes Medical Institute (HHMI) Undergraduate Science Education Grant, welcomes you to the new age of biological studies. The HHMI grant allows the department of Biological Sciences to offer research opportunities, scholars programs, faculty and curriculum development, as well as pre-college outreach experiences for New York City teachers and students.

**Undergraduate Research Opportunities**

Biology majors in their sophomore or junior years have the opportunity for summer research at the Marine Biological Laboratory in Woods Hole, Massachusetts, or Cold Spring Harbor National Laboratory on Long Island.

**Undergraduate Scholars Program**

Six undergraduate women or economically disadvantaged Biology majors in their junior or senior years will receive tuition assistance, health care reimbursement, and a stipend.

**Pre-College Outreach Program**

Upon completion of a 4-week summer Biotechnology workshop, NYC high school teachers are able to order $2,000 worth of laboratory equipment and supplies for their high school in order to teach their students molecular biology. These classes spend a day at the American Museum of Natural History to experience the diversity of biology and they also spend a day at Hunter College, meeting with biology faculty and students, visiting laboratories, and touring the campus.

**Faculty Development**

Invitations by junior faculty to experts in their field to present a seminar at Hunter and spend a second day discussing the junior faculty member’s research.

If you would like to know more about the opportunities offered via the Howard Hughes Medical Institute Undergraduate Science Education Grant at Hunter College call:
